SOLBERG TO TAKE
INDIA JOURNEY

Dr. Richard A. Solberg, associate professor of botany and director of the Biological Station at the University of Montana, has been chosen as one of seven botanists from the United States to spend the 1966 summer working with university teachers of biology in India.

Dr. Solberg will be at Kerala University, Trivandrum, Kerala, India, from early June until August as a specialist - consultant for a summer institute involving approximately 30-40 Indian biology professors.

The institute, one of seven such in that country, is designed to modernize the presentation of biological science to Indian University students.

The program is under the regulation of the U.S. Agency for International Development, and under the coordinated direction of Ohio State University and the University Grants Commission of India.

Dr. Solberg's return trip ^{ay}itinerary will include visits to botanical research facilities in Manila, Phillippines; Tokyo, Japan; and Hawaii.
